PROFESSIONAL SUMMARY

Full-stack software developer with 4+ years of professional experience building production ERP and internal business applications for a government utility, plus 1+ year in software quality assurance and testing. Backend strength in Python/Odoo and C#/ASP.NET Core, with frontend experience in React and TypeScript. Experienced in REST APIs, PostgreSQL, business-process automation, system integration, debugging, testing, and translating complex operational rules into maintainable software.

TECHNICAL EXPERTISE

Languages	C#, Python, TypeScript/JavaScript, SQL, XML
Backend & APIs	ASP.NET Core, EF Core, Odoo ERP Framework, Django REST Framework, FastAPI, Odoo Controllers, RESTful APIs
Frontend	React, TypeScript, Vite, Tailwind CSS, Ant Design, HTML, CSS, QWeb
Data & Integration	PostgreSQL, relational data modeling, Axios, API integration
State, Testing & Tools	TanStack Query, Zustand, Git, functional/regression testing, debugging, QA practices

PROFESSIONAL EXPERIENCE

Sr. Computer Services Programmer — Full-Stack / ERP Developer

DEC 2021 - PRESENT

Davao City Water District, Davao City, Philippines

- Engineer and maintain custom Odoo ERP modules covering business logic, workflows, validations, reports, access controls, and XML/QWeb interfaces for core utility operations.
- Design and integrate RESTful APIs and backend services using ASP.NET Core, Odoo controllers, Django REST Framework, and FastAPI to connect enterprise modules and internal applications.
- Build React and TypeScript interfaces for internal business workflows, integrating APIs and applying modern client-side data and state-management patterns.
- Translate department requirements into data models, business rules, API contracts, validation flows, and maintainable end-user workflows.
- Troubleshoot, refactor, and validate production code with stakeholders and QA personnel to improve correctness, maintainability, and performance.

Records Assistant / Quality Assurance / Software Tester

JUL 2020 - NOV 2021

Davao City Water District, Davao City, Philippines

- Performed functional, regression, and business-rule testing for internal applications and documented reproducible defects before release.
- Validated bug fixes and new features against user requirements, coordinating with developers throughout the defect-resolution cycle.
- Maintained data accuracy and record integrity, strengthening attention to data quality and edge cases later applied to software development work.

OJT Web Developer / Technical Support Group

JUN 2019 – OCT 2019

Davao City Water District, 500 hours

- Assisted in the development and maintenance of internal web applications, including the COC & CTO Web Application and Phone Directory Application.
- Provided application and technical support to end users, troubleshooting software and system issues.

SELECTED DEVELOPMENT WORK

- **Payroll & HR ERP Workflows** — Developed and maintained payroll-related business logic, payslip-generation workflows, reporting/export functionality, and employee/attendance integrations across ERP and supporting web/API components.
- **ERP & Internal API Integration** — Built and consumed REST endpoints across Odoo/Python and ASP.NET Core services to connect modules and internal applications while keeping business rules centralized and testable.
- **Indoor Environmental Quality Monitoring System** — IoT capstone combining Arduino sensors, a custom API, and an Android Studio mobile application for real-time indoor-condition monitoring; recognized as Best Capstone Project 1st Runner-Up.

EDUCATION

Bachelor of Science in Information Technology

GRADUATED

Holy Cross of Davao College, Davao City, Philippines

RELEVANT CERTIFICATIONS & TRAINING

- In-Depth Testing Management Techniques for ICTD Personnel — Davao City Water District, Dec 2023
- Career Service Examination, Professional Level — Passed
- IoT: Arduino Workshop (2-day) — Holy Cross of Davao College, Mar 2019

LEADERSHIP & RECOGNITION

- Outstanding Student Leader — College of Engineering and Technology, SY 2018–2019
- President, Information Technology Society, SY 2018–2019
- Best Capstone Project — 1st Runner-Up
